***Allowable Subject Matter***

1. Claims 1-4 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

*Prior art, alone or in combination, fail to teach a method of erasing data of a nonvolatile memory unit, as disclosed specifically in claims 1-4, having erase and write pulses provided to the memory transistors repeatedly, with intensity changing each time, until the transistors assume an erased state and recovery state respectively, when the transistors are not in the respective states. A selective recovery operation is repeated on the transistors until transistors are not in the over erased state. Since the state of the transistors is verified before applying the pulses, the unnecessary pulse application operation is prevented in order to stabilize the erase operation.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hien N Nguyen whose telephone number is (571) 272-1879. The examiner can normally be reached on Monday through Thursday 9:30 AM to 7:00 PM..
